8.

You cannot "statisticize" people
Perhaps we can comprehend the 111,614 man hours or
that the \$65,000. budget is a lot of money even in
these inflated days

but

KANAWANA IS PEOPLE

How does one express, or readily understand the
feelings of John standing in the dining hall being
recognized for swimming a mile

or

Gary who no longer drives around camp in his "bus" -
he no longer needs the "bus" because "now I have
friends"

or

Peter's feelings that night, complete with pack and
map, he left camp alone because at home he had never
been expected to stand up for himself and at first
camp was too much for him

or

What about Cyril

or

Fred
and Ken

or

and

9.

All this and much, much more -

with a plant designed and constructed

to 1940 specifications -

for youth

designed and educated for the

"space-plus" age

APPRECIATION:

Respectfully submitted,
